CAREER OBJECTIVE

MCA graduate with 2+ years of professional experience in IT, process management, and workflow automation. Skilled at coordinating with teams and clients, resolving queries professionally, and maintaining accurate records and reports. Seeking a new opportunity where I can apply my technical knowledge along with my communication, coordination, and people-management skills to deliver efficient and reliable service.

KEY STRENGTHS

- **Team Supervision & Leadership** – Able to assign tasks, follow up on progress, and get work completed on time through team members; proven leadership as Vice President of the MCA students' association.
- **Public Dealing & Query Resolution** – Comfortable interacting professionally with visitors, clients, and staff; patient in understanding queries and resolving them quickly and politely.
- **Computer Proficiency & Work Ethic** – Strong grip on computers, MS Office, data entry, record keeping, and report preparation, with experience in improving day-to-day processes; hardworking, punctual, and equally comfortable with technical and non-technical responsibilities.

WORK EXPERIENCE

Python Developer | Digipie Technologies, Surat

Jul 2025 – Present

- Worked on backend APIs using Python (FastAPI & Django); coordinated with team members and clients to resolve queries and deliver work on time.
- Automated routine office workflows using Make.com, Zapier, and N8N, reducing manual effort and errors in daily operations.
- Perform data validation and consistency checks; identify the root cause of data issues and resolve them, ensuring accurate records and reports.

Software Developer | Biztechnosys Infotech Pvt Ltd, Bangalore

Jul 2024 – Jun 2025

- Interacted with clients to understand their working process and customized CRM software as per their day-to-day requirements.
- Maintained structured data, validation rules, and reporting formats to keep records clean and audit-ready.
- Improved turnaround time of backend processes through better coordination and follow-ups.

RPA Developer (Internship) | 1Rivet India LLP, Valsad

Feb 2024 – Jun 2024

- Identified repetitive manual tasks in office processes and helped automate them, improving overall efficiency.
- Collaborated with the team, tracked performance of automated processes, and reported improvements to seniors.

LEADERSHIP & ACHIEVEMENTS

- **Vice President** – Association of MCA Students (AMS), Nirma University (2022–23): Led the student body, organised events, managed volunteer teams, and acted as the bridge between students and faculty.
- Secured 65th Rank in ACPC-CMAT (national-level entrance exam) for MCA admission.

EDUCATION

Master of Computer Application (MCA) — Institute of Technology, Nirma University, Ahmedabad (78.60%) 2024

Bachelor of Computer Application (BCA) — Naran Lala College of Professional & Applied Sciences, Navsari (80.40%) 2022

SSC - 66.00% (2017) & HSC - 70.26% (2019) — Navchetan High School, Navsari 2017–2019

COMPUTER & TECHNICAL SKILLS

- Computer Operations: MS Office (Word, Excel), Email, Internet, Data Entry, Record Keeping & Reporting.
- Programming & Databases: Python, SQL, HTML, CSS, JavaScript — working knowledge for office systems and troubleshooting.
- Automation Tools: Make.com, Zapier, and AI-based tools for simplifying daily workflows.
